

You're invited to attend our workshop

Wednesday 19th and Thursday 20th September 2018

This workshop will present the new Phenom Pharos desktop SEM – the first system to arrive in Australia! Both new and existing users are invited to enjoy the demonstrations followed by additional “hands on” time for sample analysis.

LOCATION:

Western Sydney University,
Parramatta South Campus, AMCF,
Room EHa.G49

DATES:

Dates	Morning session	Afternoon session
Wed 19 Sept	Demo: 9-10am Hands on: 10-12pm	Demo: 1-2pm Hands on: 2-4pm
Thur 20 Sept	Demo: 9-10am Hands on: 10-12pm	-

Join us and use the new Phenom Pharos desktop SEM with FEG source

The Phenom Pharos is the first desktop SEM solution that includes a field emission gun (FEG) source to deliver crisp, high brightness images. It offers floor model performance on a desktop microscope .

Join us and test drive the complete series of Phenom desktop SEM instruments including:

- **Phenom Pharos SEM** - the very first desktop SEM that comes with a FEG source to deliver crisp, high quality images with magnifications of up to one million times and <3nm resolution.
- **Phenom ProX Gen 5 SEM** – New 5th generation Phenom desktop SEM with enhanced imaging performance plus fully integrated x-ray analysis (EDS), fastest time to imaging and “never lost” navigation.
- **Phenom XL SEM** - Superfast and easy to use and provides high resolution imaging with elemental analysis of large samples up to 100mm x 100mm.

Please register by completing the [registration form](#) online or email us with your details. We look forward to seeing you at our workshop.

RSVP: 18 September 2018. For further information, call **02 9541 3500** or email enquiries@atascientific.com.au
