

Faster, higher-resolution desktop SEM

Test drive the new Phenom Pharos SEM with FEG source

TOURING SEPTEMBER 2019

Register your interest today!

ON SHOW:

Join us and test drive the Phenom Pharos SEM - the first desktop SEM solution that includes a field emission gun (FEG) source to deliver crisp, high brightness images. It offers floor model performance on a desktop microscope with magnifications of up to one million times and <3nm resolution.

Phenom offers a serious alternative to floor model SEMs that's also affordable.

FREE WORKSHOP

WHO SHOULD ATTEND

Experienced users and non-users of SEM are invited to discover new insights via scheduled demonstrations followed by additional "hands on" time for sample analysis.

DEMO/ HANDS ON:

Daily demonstrations using the Phenom Pharos SEM will be followed by "hands-on sessions" where the system will be available for participants to operate. Samples are welcome.

BOOK A TIME SLOT:

To book a session register online at www.atascientific.com.au/awards-events-training/upcoming-training/
